FIRE RESISTING SECURITY FILING CABINET

CMI SECURITY FILING CABINETS offer first-class fire and theft protection in the one unit.

BODY: Total thickness 70mm. The safe body features a highly efficient fire-resistant mineral compound of extremely low heat conductivity between inner and outer walls of specially reinforced steel. A sealed expanding gasket is fitted around the entire door perimeter to resist entry of heat, smoke and water.

DOOR: Total thickness 90mm. The safes have a heavy steel plate door and frame for maximum strength, with an insulation chamber fitted to the rear. Front and rear locking bolts of 32mm diameter high

grade steel provide 2-way locking into the specially strengthened lock chamber sections at front and rear edges of the door. Special hinges allow the door to turn through 270° to remain parallel with the side of the safe allowing clear internal access.

LOCKING: Secured by a digital lock powered by 1 x 9V Duracell battery. Glass activated relocker system to further enhance safe security.

INTERNAL FITTINGS: Supplied complete with a filing cabinet of appropriate size. Optionally, may be supplied with a smaller filing cabinet and some adjustable shelving.

FINISH: Painted in attractive durable enamel. Satin finish handles, locks and fascia panel complement the high quality appearance.

Model	Height mm		Width mm		Depth mm		Weight
	External	Internal	External	Internal	External	Internal	
FP2 2 DRAWER	865	730	640	480	762	620	298kg
FP3 3 DRAWER	1170	1040	640	480	762	620	368kg
FP4 4 DRAWER	1480	1340	640	480	762	620	440kg

IMPORTANT

Allow 55mm projection for handle on depth measurement.

CMI Safe Co. reserve the right to alter specifications without notice or obligation.

ALL CMI SAFES COME WITH A FIVE YEAR WARRANTY, EXCLUDING FREIGHT AND TRAVELLING, WITH A 24 MONTH WARRANTY ON LOCKS.
